the "pandemic" and what he and his company were doing *publicly* to censor users who attempted to tell the deadly truth about them.

Early on before Operation Warp Speed had even been launched and the jabs were still just being talked about by then-President Donald Trump as a soon-to-come "cure" for the Fauci Flu, Zuckerberg told Facebook executives in a private meeting that they needed to be cautious about mRNA injections because "we just don't know the long-term side effects of basically modifying people's DNA and RNA."

"I also wanted to share a few ideas of ways we could help you get your message out, but I understand you're incredibly busy, so don't feel a need to reply unless these seem interesting."

"This isn't public yet, but we're building a Coronavirus Information Hub that we're going to put at the top of Facebook for everyone (200+ million Americans, 2.5 billion people worldwide.)"

That Coronavirus Information Hub, we now know, played a big part in keeping a lid on the truth, which was not allowed to spread on Facebook due to Zuckerberg's influence.

After it became obvious that many people were becoming seriously injured or dying from the Operation Warp Speed drug injections, Zuckerberg banned numerous vaccine injury support

Zuckerberg also funneled \$440 million into a phony non-profit group called CTCL that then handed the money over to government election officials to engage in election and voter fraud.

Many of the figureheads who publicly supported and pushed covid injections were worried about or opposed to them in private. Learn more at [Deception.news](https://deception.news).
